My dear friend

113

You well know my
feelings when I find me in poor
health. I am suffering from another
turn of nervousness which has
been coming upon me for a
few weeks.

Oh yes! it is very desirable
to do that which shall be a
less measure) make some
work of planning. Not only have
I given my name to the
Women's Petition - but I have
given them a present of \$200
to help them along in their
good undertaking.

In haste

Your friend

Smithwick
